How to stitch this design

1. Print at 100% / Actual Size and check the scale line. Transfer onto wash-away stabilizer and place it just above the ribbed cuff.
2. Work with one hand inside the sleeve so only the top layer is caught.
3. Satin-stitch the stems, then the caps.
4. Add the brown gill lines under each cap and the grass tufts.
5. Check the cuff still stretches, secure tails, dissolve the stabilizer and dry flat.
